ISSUED TO THE SUBSCRIBERS BY PHILLIMORE & Co.,

P R E F A C E .

In this, the fourth volume, are given the Marriage Registers of sixteen Gloucestershire parishes, all in the north eastern corner of the county. The former volumes contain the twenty-one following parishes :—

VOLUME I.		VOLUME II.	
King's Stanley	Swindon	Leonard	Uley
Owlpen	Forthampton	Stanley	
Quedgeley	Nimpsfield	Stonehouse	Owlpen
Rendcombe	Slimbridge	Stinchcombe	Chedworth
VOLUME III.			
Nether Swell	Matson		
Stone	Bishop's Cleeve		
Mickleton	Charlton King's		
Aston Subedge	Dorsington		

For the Kemerton Registers thanks are due to the Rector, the Rev. J. J. Mercier. All the others have been transcribed by the Rev. J. Harvey Bloom, Rector of Whitchurch, near Stratford-upon-Avon, and to him the Editor is under special obligation for the readiness with which he has helped forward the work. Thanks also are due to the parish clergy for leave to print the various registers. Their names are mentioned under the several parishes.

1379118

As before, this volume is issued without an index. Hereafter the Editor hopes that it will be feasible to issue a general

index for the whole county, and thus to avoid that great evil—an undue multiplicity of indexes.

The reader must bear in mind that these transcripts are not legal “evidence,” and that for certificates the parish clergy must be applied to.

Volume V, now in the press, will contain, with other parishes, Hawkesbury and Dursley, and will appear at an early date.

The Editor desires to impress upon the reader the fact that it is only volunteer assistance which renders the issue of these Registers possible. He will gladly welcome further help in the work of transcription.

Marriages at Kemerton,

1575 to 1716.

NOTE.—The registers of the parish of Kemerton are in three parchment volumes, all in good preservation. Vol. I measures $11\frac{1}{2}$ by $7\frac{1}{2}$ in., and has 110 pages, the first 82 only being numbered. The first page is mostly palimpsest, the older reddish-brown ink being seen through or near the newer and blacker ink. It is headed, in a black letter hand, "Regist'. Eccle'. Parochiæ de Kenmertone, An'o Domini, 1572"; and the entries continue from that year to the end of 1720. Each year is perfect: but there are no entries for 1589-95. The pages, or years, are signed by the then Rector and two Churchwardens, entered before 1610 as Guardians.

On one of the two paper fly-leaves at the beginning of this volume is written, "30 leaves, paid for this booke 3s. 4d.," and under this, "There was a marriage in y^e Church the 9 July 1641 nott sett downe." On the other leafe, "30 leves. I payde for this booke iijs. iiijd." Under this, "More leafes since added, which make up in y^e whole, the number of 80 pages." Lower down, "Thomas y^e sonne of John Farley and Mary his wife baptised Wenesday June y^e 17. 63," an entry omitted in its proper place. There are several trial signatures of Joh. Hinman, Rector, 1648-74, and in his handwriting the text, written twice and smudged over, "Let me die the death of the righteous."

Several blank leaves have been cut out, a small portion of them being still left, and nearly half of the last page has been cut away lengthwise, and on the remaining portion a list of the Rectors, with the dates of their burial or death. Among them occurs the name of Dr. Godfrey Goodman (Rector 1630), Bishop of Gloucester (1625), whose chequered career may be read in full in the *Dictionary of National Biography*. There is also on this page an entry concerning right of way.

Vol. II measures $9\frac{1}{2}$ by $5\frac{1}{2}$ in., and has 74 pages. It contains the Register of Baptisms and Burials from 1721 to April 1782 and of Marriages from 1721 to the end of 1755. After that date the Marriages are registered in books of printed forms.

Vol. III measures $11\frac{1}{2}$ by $7\frac{1}{2}$ in., and 36 of its pages are occupied with Baptisms and Burials from March 1782 to the end of 1812.

The Marriages have been extracted by the Rev. J. J. Mercier, Rector of Kemerton, and are now printed by his permission and under his supervision.

1690 to 1810.

NOTE.—The earliest Volume of Registers is of parchment, and measures fourteen by eight inches, bound in brown tooled leather, with clasps of brass. The entries are many of them of much interest, but entered indiscriminately in chronological order. Marriages at Buckland,

1539 to 1839.

NOTE.—The Marriages are contained in three books. Volume I, 1539-1754. Volume II, 1755-1803. Volume III, 1813-1839. The oldest book is an interesting parchment volume, containing some 69 pages, and divided into three divisions, Burials, Marriages, Baptisms. The earlier part is in the writing of Thomas Fowke, as the following entry placed before the Baptisms shows:—

“A true copie of the Register Booke
Of Buckland and Laberton copied out and
written by Thomas Fowke als Wheler and
continued by John Maltbie, Parson ther
Thomas Blissard & William Izode church
Wardens and divers other p^rishioners in
Anno Dni 1600.”

Fowke divided his paper into three columns, placing the name of the month on the left, and the date to the right of the entry proper. The writing is very good, and the whole book in fair condition, it measures 13 by 6 inches and has a flexible parchment cover. The extracts have been taken by the Rev. J. Harvey Bloom, M.A., and are printed under his supervision with the consent of the Rector, the Rev. F. Hull.

1676 to 1752.

NOTE.—The Marriages following are contained, mixed up with Baptisms and Burials, in a parchment volume, 13 inches by 6 inches, containing 62 pages. The Volume is in fair condition, a little faded and damp stained in places. It is headed—

The Vicar states that the folio containing the Marriages between 1754-1812 is not in the chest, and is therefore missing. The Marriages have been extracted by the Rev. J. H. Bloom, Rector of Whitchurch, and are printed under his supervision with the consent of the Rev. A. G. Lane, vicar.

[As will be seen from the prefatory note, the Volume containing the Marriages from 1771 to 1812 is no longer to be found.]

Marriages at Wormington,

1719 to 1812.

NOTE.—The oldest existing Register is a small volume of parchment in fair condition, containing Baptisms, Marriages and Burials. The second volume, which contains no Marriages, is of paper bound in green morocco, and having brass clasps. This contains no Weddings. Inside is written

“This Register Book was given for the use of the Parish of Wormington, by Nathaniel Jeffreys, Esq.”

The third volume is of the ordinary official type, but the pages with entries have been torn out and are laid loosely in the 1813 volume.

The extracts have been made by the Rev. J. Harvey Bloom, under whose supervision they are now printed with the consent of the late deceased Rector, the Rev. S. Du Pré.

Marriages at Childswickham,

1560 to 1812.

NOTE.—These Marriages are contained in four volumes, of which the oldest is of parchment, with flexible covers ; it contains Marriages at the commencement and at the end, and Baptisms and Burials, There are also recorded the inductions of three priests, viz., John Brian Moore, 13 Aug. 1663, Richard Gregory, 24 Dec. 1700, and John Capen Clarke, 30 May 1719. There are extensive gaps in the Marriage series from 1562-1609, and 1714-20.

The extracts have been made by the Rev. J. Harvey Bloom, and are printed under his supervision with the consent of the Rev. Ll. Lloyd, vicar.

Marriages at Guiting Power,

1560 to 1812.

NOTE.—The earliest register of Guiting is a parchment book of 69 leaves bound in a flexible binding, but many of the binding stitches have given and most of the pages are loose, otherwise it is in very fair condition. It is a narrow book about 12 by 6 inches. It will be noticed that there are several gaps. The 2nd Volume is an ordinary official book of paper. The Marriages have been extracted by permission of the Rev. Dr. Green, Vicar, and the Churchwardens, by the Rev. J. H. Bloom, and are printed under his supervision.

NOTE.—The Marriages in this Parish are contained in four small Volumes, Unfortunately, however, those registered from 1599 to 1716 inclusive are missing,

The oldest Volume is a small book of parchment, the outer leaf left blank and ending abruptly at its eighth page. It measures 7·75 by 5·5 inches, and has as a heading—

The Register Booke of

the Countie of Glouc. beginninge
In the year of our Lorde God, 1577.

Volume II is of parchment bound in a cover of the same material. It measures 16·5 by 7·5 inches, and contains Baptisms, Burials and Marriages. It is in good condition, and some of the latter are entered in the 3rd Volume.

Volume III is of paper and consists of 25 pages, measuring 8·5 by 6·5. The paper has the Britannia Watermark.

Volume IV is an official folio.

The Marriages have been extracted by the Rev. J. H. Bloom and printed under his supervision with the consent of the Rev. J. C. Bradley, Rector.
